MOTIVATIONS...

WHY DO YOU WANT TO WORK FOR THIS HEALTH CARE CHARITY?

I am eager to embark on a fulfilling career that not only offers job enrichment, through diversity in my work and opportunities for career progression, but also offers job satisfaction, where I can feel proud of the work I am doing. I want to carry out projects that will make a difference to our world and the people within it as I believe a job should be more than just something we do to make ends meet. In recognising that mental health is such a prevalent issue in society today, I believe supporting those suffering from it should be made a priority. Particularly within the healthcare sector, I am committed to ensuring the happiness and health of its workers who have dedicated themselves to caring for others, and may have as a consequence, neglected themselves. Therefore, I believe a role in this amazing charity would be a great fit for me as I would not only see it as a job, but as a passion of mine for which I would be dedicated to the mission and work hard to bring value to my work everyday.
